

Data Quality Report

Project

Nifty100 Data Foundation

Database Validation Summary

Tables Loaded

- companies
- profitandloss
- balancesheet
- cashflow
- analysis
- documents
- prosandcons
- sectors
- stock_prices
- financial_ratios
- peer_groups
- market_cap

Data Quality Checks

Duplicate Records

All tables checked.

Result:

- Duplicate Rows = 0

Null Value Review

Observed null values in:

- companies
- profitandloss
- cashflow
- documents
- prosandcons
- financial_ratios

Severity:

WARNING

No critical failures found.

Foreign Key Integrity

Result:

PASS

Primary Key Integrity

Result:

PASS

Database Statistics

Table	Rows
companies	92
profitandloss	1276
balancesheet	1312
cashflow	1187
analysis	20
documents	1585
prosandcons	16
sectors	92
stock_prices	5520
financial_ratios	1184
peer_groups	56
market_cap	552

Conclusion

All source files were successfully loaded into SQLite.

No duplicate records were detected.

No critical data quality issues were identified.

Database is ready for downstream analytics and reporting.
